ENGLISH PARLIAMENT PROROGUED.

The Speech from the Throne.

By Cable to the News.

The session of Parliament was prorogued to-day by the Queen, until the 2nd of November 1878. In the royal speech, which was read on the occasion, the Queen congratulates Parliament on the conclusion of peace by the Berlin Congress, and the Cyprus treaty was referred to as a guarantee of Turkish independence and pledge of reform. The conduct of the troops was highly praised.

The Queen, in her speech proroguing the Parliament, attributes the pacific solution of the difficulties in the East largely to the support of Parliament, and believes that the peace concluded by Congress, at Berlin, will be satisfactory and durable. The independence of Turkey has been secured, the integrity of her territory guaranteed, and reforms in her administration are pledged by a defensive convention between Her Majesty and the Sultan, in accordance with which Cyprus has been occupied by the British forces. The Queen praises the spirit and alacrity of the land and naval forces, and refers with especial gratification to the condition of the Indian army and the loyal attitude of the Indian Princes. The Queen declares that her relations with all the foreign powers continue friendly.

Tennessee Democratic Convention.

By Telegraph to the News.

NASHVILLE, August 16.—The Democratic State Convention reassembled this morning. The platform adopted arraigns the Radical party as the author of all the country's misfortunes, and pledges that the Democratic party will never lower its banner until the prosperity of the whole people shall be held to be the supreme law of the political administration. The following gentlemen were put in nomination for Governor: Alfred Caldwell and John M. Fleming, of Knoxville; John H. Savage, of McMinnville; Arthur S. Colyear, of Nashville, and John A. Gardner, of Weakley county.

Orvil Grant Interviewed.

By Telegraph to the News.

BOSTON, Aug. 16.—General Grant's brother Orvil in an interview says, the General had written his friends, he would on no account accepted the Presidential nomination, but he (Orvil) thinks he probably could be educated up to it, as he was once before. If he could be made to believe that he was the only man able to save the country or party, he would allow his name to be used, even at the risk of defeat.

Nebraska Greenback Convention.

By Telegraph to the News.

LINCOLN, NEB., August 16—The Greenback Convention nominated J. W. Davis for Congress and L. G. Todd for Governor.

Washington Notes.

By Telegraph to the News.

WASHINGTON, August 16—The Cabinet session was of brief duration. The distressing reports from the Southern cities where yellow fever exists was the subject of discussion. Deep sympathy was expressed for the people of the fever stricken districts. A determination was expressed of giving every possible aid to the afflicted cities and the favorable response of the Secretary of War to the appeal from Memphis was highly eulogized by the President and members of the Cabinet.

The Commissioner of the General Land Office authorizes a third surveying party to aid in the identification of lands in Mississippi from which the public timber has been cut and removed, thus to furnish testimony to sustain the indictment in the U. S. Courts of Mississippi against trespasses on public lands.

Another call for the redemption of five million of 520 bonds was issued from the Treasury to-day.

Secretary Thompson left for Indiana to-day.

Cotton Brokers' Circular.

By Cable to the News.

LIVERPOOL, Aug. 16.—This week's Circular of the Liverpool Cotton Brokers Association says Cotton was dull throughout the week, with a limited business. Tendency being in favor of buyers. Some descriptions slightly declined; for American inquiry was limited, and quotations of current qualities are reduced at sixteen. Sea Island was in steady demand and full rates were paid. Futures were very quiet. Prices on Wednesday show a decline of a sixteenth, but recovered excepting for near positions, which close at 1-32d better than last Thursday's prices.

Murderers Confess.

By Telegraph to the News.

SAN FRANCISCO, August 16.—Troy Dye, public administrator of Sacramento county, has made a full confession concerning the murder of M. Tullison, at Grand Island. He investigated the murder for the purpose of getting control of the estate of the deceased. He implicates as the perpetrators of the deed, Edward Anderson, a Swede in his employ, and another, whose name is unknown. Anderson's confession corroborates Dye. He was to receive six thousand dollars.

A Strike.

By Telegraph to the News.

POTTSVILLE, PA., August 16.—The breaker boys employed at Dr. Prevost's Colliery at Centralia, struck for advance wages this morning. They demand the same basis of wages paid by the Philadelphia and Reading Coal and Iron Companies. In consequence of the strike at the Colliery, 200 persons are idle.

Platform of the First District Democratic Convention.

Whereas all kinds of property have depreciated in value; all business interests depressed; trade decreased; industry paralyzed, and wages reduced thro' all parts of the country, which state of affairs has been brought about by class legislation in the interests of the money power and by the contraction of the currency: *Therefore*, The Democratic Party of the First Congressional District of North Carolina do

Resolve, 1st. That we believe it to be the duty of the general government to create and issue a circulating medium consisting of its own notes, and which shall be a legal tender for the payment of all public and private debts.

2nd. That we demand of the government such a currency, and that all the bonds of the United States be paid under the original contract, with the same currency, as fast as they shall become due, and that no bonds bearing interest shall again be paid by the government.

3rd. That we demand that such bonds shall be taxed like any other property of the people.

4th. That we demand the unconditional repeal of the National Bank Act, and the Resumption Act.

Negro Killed at Warm Springs.

Asheville Citizen.

We learn of a difficulty at the Warm Springs, some days since, resulting in the death of a negro man in the employ of the hotel. The negro it seems, was in the habit of getting tight occasionally, and when in that condition was both insulting and dangerous. Dr. Howerton, on the occasion in question, had ordered him from the premises, when the negro insulted the Doctor grossly and showed resistance to the order to leave. The Doctor advanced towards him for the purpose of assisting in forcing him to leave the place, when, at this juncture, another negro employee there, who had been in a difficulty the same day with the deceased, came up and fired twice with a pistol upon the belligerent darkey, the second shot taking effect in the groin and causing death. The negro who fired the shots subsequently made his escape into Tennessee. A Coroner's inquest acquitted Dr. Howerton of any complicity in the killing.

THE FIFTH DISTRICT.

Democrats in Convention--A Large and Enthusiastic Assembly--Gen. A. M. Scales Renominated Without Opposition.

Correspondence of the News.

GREENSBORO, Aug. 15.

Capt. Geo. N. Gregory, Chairman of the 5th District Executive Committee, called the meeting to order at 12 m., and called Hon. F. C. Robbins, of Davidson, to the chair for temporary organization.

The chair made a telling speech.

T. C. Evans and J. R. Webster acted as secretaries.

Upon the call of counties, all were found represented except Person.

The following committees were then announced by the chair:

On Permanent Officers—J. A. Long, of Caswell, J. E Albright, of Alamance, J. M. Morehead, of Guilford, J. W. Thomas, of Davidson, F. C. Frazier, of Randolph, J. C. Vaughn, of Stokes, and S. N. Hand, of Rockingham.

On Platform—J. C. Gilmer, of Guilford, J. S. Scott, of Alamance, R. E. Heuderson, of Caswell, C. T. Lowe, of Davidson, A. S. Hoover, of Randolph, J. E. Hill, of Stokes, J. R. Webster, of Rockingham.

A recess was then taken until 3 p. m., when the Convention was called to order and the reports of committees read.

The committee reported as permanent officers: Col. T. M. Holt, of Alamance, president; T. C. Evans, P. F. Duffy, J. R. Webster, secretaries.

Colonel Gilmer, as chairman on Platform, read a series of resolutions, setting forth the wants of the people and country, showing the fearful influence of Radical rule for the past 18 years; showing what the Democratic party had done; what it was now in favor of, and pledging it for untiring efforts in the future, as in the past, to put forth every laudable means for the speedy relief of the whole nation.

Honorable A. M. Scales was then renominated without a dissenting vote.

The chair designated Colonel Long, of Caswell, and Major Glenn, of Rockingham, to notify the General of his nomination. He was soon introduced, and delivered a telling speech, after which the convention adjourned.

Captain Gregory, who is always alive to the interests of the party, gave notice that the Greensboro Democratic Club would meet at 8 P. M, and be addressed by Lieutenant-Governor R. F. Armfield, Honorable F. C. Robbins, and others, and while I am writing, Colonel Armfield is addressing a well-filled house.

This, the first rally of the old club since the days of 1876, shows that there is "life in the old laud yet," and that old Guilford will do better in November than she did on the 1st instant. A.

THE MARSEILLES HYMN.

How it was Composed, and who were its Authors.

Washington Part.

The following item concerning the Marseilles hymn, translated from the French for the Post, will be of general interest. It is little known that Rouget de L'Isle was not the only author of the "Marseillaise," and that he had a collaborateur in its composition. On the 14th of July, 1792, they celebrated the fete of the Federation with great enthusiasm. The citizens of Marseilles crossed France and entered Paris at the time of the taking of the Tuilleries. A young Abbe, a professor attached to the college of Vienna, seeing the crowds, was inspired to compose a patriotic verse for his pupils. The next day, in the midst of wild cheers, the departure of the men of Marseilles was accompanied by the singing of the new verse by the young collegians. The hymn of Rouget de L'Isle was called *La Marseillaise* from the fact that its completed production was contemporaneous with the visit of the patriots of Marseilles to Paris. During the winter of 1792 there was an extraordinary performance at the opera; all the members of the convention were present, and, as usual, the public demanded the Marseillaise. The actors declaimed the verses and the people sang the refrain. After the declaration of the familiar lines, the fresh young voices of children were suddenly heard, intoning the new and unpublished verse of the young Abbe:

"Nous entrerons dans la carriere,
Quand nos aines n'y seront plus," &c.]

In the midst of exclamations of surprise and excited applause the name of the author was demanded, and it was announced that it was the work of a young professor of the college, Antoine Personneaux, of Dauphiny. After some time had passed a lugubrious drama upon another stage, recalled the scenes described. In a hall of the Hotel de Ville, about a table covered with black cloth, sat seven judges, the President in the centre. From the neck of each was hung a small silver axe, emblem of his terrible attributes. Baleydier, in his history of the time, describes the scene. Near the table, upon a raised seat, sat the prisoner, undergoing an examination. Behind him stood files of armed soldiers. The jailor was near him awaiting the signal that would announce his fate. The hands of the judges held out open over the black cloth would signify an acquittal. The patriotism of the accused was not unquestioned—he had proved it—but he was a priest. To the question by the President, "Who are you?" the prisoner replied proudly, "I am the Abbe Personneaux, and the author of the Marseillaise." There was a sensation in the room, and the soldiers were agitated. A ray of light came to the judges. They held out their open hands ever the black cloth! The priest, acquitted, walked lightly out.

Ridicule.

If ridicule is ever allowable or justifiable—says an exchange—it certainly is not so when directed against physical ormental defects. Some parents, teachers, and other guardians of the young, think it wise to use this weapon for the purpose of stimulating the ambition or of improving the manners of their children or their pupils. It may, perhaps, avail where there is no sensitiveness in the individual—in which case other means will answer quite as well, and better. Indeed, ridicule is a most cruel and dangerous remedy for any fault or failing, and is likely to be productive of greater evils than that upon which it bears, especially as it is almost always aimed at those things which the poor victim is thoroughly conscious of, but is not able to help. Many children suffer martyrdom during their school days because of their red hair, stuttering tongues, big noses; or other peculiarities, and must bear in silence the witticisms of their school fellows, because the persecution increases at any exhibition of feeling or show of resistance. Sensitive children, if exposed to such treatment at home grow reserved and dull, sometimes becoming alienated from their homes, because they dare not express their sentiments or bestow their confidence, for fear of being laughed at. And there are women as well, as men who would walk up to the stake, if necessary, without flinching—would be brave and courageous in time of trial and danger—but who could not endure a sneer, and would be utterly overcome by a sarcastic laugh at their expense.

QUARANTINE EFFECTS.

Twenty-five Hundred Men Thrown Out of Employment.

New Orleans Democrat.

One of the disastrous effects of the quarantine on the part of the city of Galveston, is shown by the action on the part of the agent of the Morgan line of steamers. When it was learned that Galveston had closed all intercourse with us orders were given to stop all the ten steamers running and discharge all hands. This throws out of employment fully 1300 men, including those of the work shops. On the railroad 500 more have been discharged, as there are trains running now between this city and Brashear only three times a week.

Doubtless great suffering will ensue from this wholesale discharge, as many of the men have large families dependent upon them.

We understand that soon after the quarantine was established at Mobile, the railroad company was compelled to discharge some 400 hands at that point and a large number here. This throws out of employment almost 2500 men, who will find great difficulty at this time in securing a livelihood at this season of the year.

News Notes.

The $7,000,000 in gold quarter eagles, now on its way from San Francisco to Washington, is coming as third class mail matter. This will prove an important saving to the Government in express charges.

There is in the Paris Exhibition an apparatus for cooking by means of the heat of the sun.

Mr. Studabaker, of Bluffton, Ind., a millionaire banker whom the Nationals of the twelfth district have nominated for Congress is making his canvass in a fancy wagon, like a circus vehicle, with a brass band and millions of tracts on the currency question. He is accompanied by his private orator, and they visit the farmers in the fields, help them at their work and at nooning make speeches to them. So picturesque a canvass has not been made since a distinguished politician rode through Indiana on a muley bull to the music of a violin.

The Hon. Robert C. Winthrop has presented the Boston Library with a volume containing the original shorthand report of Websters' reply to Hayne in the United States Senate, by Joseph Gales; the speech as written out by Mrs. and Mr. Gales from the short-hand report; the speech as prepared by Mr. Webster as copy for the press; an appendix endorsed by Mr. Webster, and the perfected speech as originally printed.

Bob Ingersoll makes the most comprehensive demands on the Government of all the "blatherskites." He says that "a Government of the United States that cannot assure every industrious man a house of three or four rooms, a wife and three or four children, and plenty of food, clothing and fuel, when we have millions upon millions of acres of land to yield food and articles of exchange with Europe, has no right to exist." We were getting ready to call upon the Government to provide everybody with employment money, education and religion, but had never thought of paying it to provide "a wife and three or four children." Really, hadn't that better be left to private enterprise.

Object of the Franco-American Conference.

New York Star.

The Franco-American Conference at Paris is in a fair way of attaining its object. Three hundred merchants and delegates, from French seaports and interior towns, were present at a meeting the other day. The object of the conference being that either country shall give to the other most favorable commercial advantages, both nations will be materially benefited by it. Perhaps in no other country are we more in need of a liberal commercial treaty than with France. There are many products of the United States which could find a profitable market in France, if the duty was more favorable to their importation thither. The same may be also said with regard to the importation to this country of French articles, such as silks, wines and spirits, which might have a wide consumption, if the duty imposed on them was not so high as to place them beyond the reach of most people. We trust that the proceedings of this conference will result in removing all difficulties which thus far have stood in the way of the commercial progress of the two Republics, and thus open a new and progressive era for Franco-American trade.

Accident to the Carolina.

Baltimore Sun.

The steamer Carolina, of the Old Bay Line, in command of Capt. Dawes, which left Baltimore on Monday evening for Fort Monroe and Norfolk, broke her crosshead when off Wolf Trap, about twenty-five miles from Fort Monroe. Her mails and passengers were transferred to the steamer Lady of the Lake, from Washington, and taken to Norfolk. The coast relief steamer Rescue took the Carolina in tow for Baltimore, where she will be repaired. The pattern for her crosshead is at a Baltimore foundry, and a new one will be completed in a short time. The steamer Adelaide takes her place temporarily on the line.

Conciliation in Cuba.

A royal decree has been published at Havana restoring to its former owners all property embargoed during the insurrection, even of those engaged in hostilities. The right of citizenship is restored to all, without distinction. The election for deputies to the Spanish cortes will commence January 15, 1879. The municipal elections are to take place before the end of the year, and the authorities will enter upon their functions upon the 1st of January. Political mass meetings are being held in Havana to adopt programmes for the coming elections.

THE YELLOW FEVER SCARE.

How it Affected the People on the Mississippi River and in Texas.

New Orleans Democrat.

Maj W A. Gwyn, chairman of the committee on information and statistics of the Cotton Exchange, arrived here yesterday after quite an adventurous trip. He visited in Kentucky, Crab Orchard Springs and numerous other places of popular resort and on his return down the river realized what the scare was over the fever here. At Greenville, Miss., the boat rounded to alongside the landing, when the timid postmaster came, down mail bag in hand, and shouted, "we don't want your mail. Don't thrown it ashore!" at the same time tossing his downard mail bag on board of the Cannon. The captain, hearing of his refusal to receive the mail from above, ordered the bag to be thrown ashore, which was accordingly done, much to the dismay of the postmaster.

At Memphis the Major found two gentlemen who were suspected to be from the city, under arrest by the authorities, both of them having had tickets from Water Valley, a point from which it was suspected that New Orleans passengers took their tickets. As the Major had been traveling for some time away from our city he secured their release upon his assurance that the gentlemen were not from here. His whole trip evidenced the fact that the people along the river are most thoroughly scared, and a box of goods or a passenger is looked upon as a scarecrow. At some points guards were stationed at the gang planks of the wharfboats to prevent either the passenger from going on shore or the landsmen from visiting the steamboat. In Memphis knots of gentlemen were seen on every cornor discussing carbolic acid and Yellow John, and men would leave their business to talk about the fever.

IN TEXAS.

the panic assumed a more warlike shape One of Morgna's line, the Arkansas, after leaving port with the assurance that she could land at that point, came to anchor, when she was boarded by a health officer, who informed the captain that Winchester rifles and double barreled shot guns were awaiting him, if he would attempt to put into port. Anchor was weighed and Indianola headed for. Arriving at the wharf there and coming alongside, two men were seen who made fast the lines and then ran towards the shore. As soon as the vessel was made fast, immediately there appeared at the shore end of the wharf a squad of men, fully armed with rifles, and guard was mounted there at once. The captain desired to communicate with the agent of the line, and descended the gang plank and walked shorewards to the wharf. He was soon confronted by the guard and ordered to deposit his letters on a post about midway between the vessel and the land. Seeing the martial array the captain deposited his letters on the post and returned to the vessel, after which a man from the landsmen ran to the post and took the letters and ran back. In this way, and only this way was communication kept up with the agents for some time. The men on the steamer would deposit their letters on a pos', keeping them in position by a stone and there leaving them. In a short time one of the shore party would come forward and take these letters, leaving answers to former ones and retire. Such is the farce as it was carried out on the Texan coast.

Hanaks' Heaven.

The heaven of the Moravian Hanaks is an immense gingerbread mountain, surrounded by a living stream of lard, on the banks of which lie prone the redeemed Hanaks, holding their chins in their hands and having their mouths open. In a pan like a crater, at the top of the hill, angels are ceaselessly cooking doughnuts and sugar-plums, which are rolled down hill, gathering a coat of gingerbread dust, then, having been dipped in the waves of lard, are conveyed to the mouths of the blest. When they are thirsty they turn over upon their backs and drink of the gentle rain of beer and brandy that is forever falling. All the while angelic choirs discourse favorite music.

Queen Victoria's Gift.

Lord Dufferin, Governor General of Canada, has just received by the English mail from Queen Victoria £10,000 sterling, Her Majesty's gift to Quebec for the construction of that portion of the Dufferin improvements, to be called Kent Gate, after her illustrious father, Edward, Duke of Kent, who resided there for several years of his life. Lord Dufferin says he is convinced the Marquis of Lorne and Princess Louise will prosecute the work with even more vigor than he had, and will probably build for themselves the contemplated Chateau St. Louis, within the citadel inclosure.

Real Name of Henry J. Montague.

The real name of Henry J. Montague, the actor, who died in San Francisco Sunday night, was Henry J. Mann. His father, an English merchant, intended the young man for the church, but Mr. Boucicault, seeing the talent he evinced in private theatricals, induced him to go upon the stage. He was also for a while Mr. Boucicault's secretary. His salary in America has been from $250 to $300 a week, and he has had various substantial benefits in addition; from one of these at Booth's Theatre, New York, in May last, he realized $2,000. The greatest part of his earnings were sent to England to his mother and sister, to whom he was entirely devoted. He leaves them a small fortune.

Yellow Fever and its Symptoms.

In view of the great interest now taken in the ravages of this dreaded disease in the Southern cities, the following description of its symptoms is given:

"About the fourth or fifth day the eyes turn yellow. The skin, also, assumes a yellowness like that of a bruise, or bright jaundice yellow. However, the patient does not turn yellow in more than one case in six. As to the causes of the scourge, the old atmospheric theory has gone by the board, and the best writers now seem to have settled down to the belief that the poison is of animalcular origin—these animalcules generating and spreading over surfaces like grasshoppers or caterpillars, and being introduced into the human blood. If they exist, the most powerful microscope has hitherto been unable to discover them. One fact that seems to point to their existence is that the same extremes of heat and cold that kill other insects also kill yellow fever, whose contagion cannot exist and becomes innocuous at 32 degrees and 212 degrees. Yellow fever is always killed out after a good freeze. Yellow fever never spreads above six hundred feet above the sea level. Acclimatization does not prevent, and no person has a second attack. The period of incubation is generally four to nine days, though persons have been known to carry it in their system twenty-three days, and then take it. Without treatment seventy-five out of every hundred will die. With treatment and good nursing, however, about one in three is the average mortality. In the great epidemic of 1867, in some Texas towns one half dies who took the fever. As to the cure, no remedy has yet been found, and all treatment so far, even by the best physicians, is as empirical as the causes of yellow fever are unknown and beyond conjecture."

WORK ON THE TEXAS PACIFIC.

A Favorable Showing for Last Year's Operations.

Philadelphia Record.

A favorable result was presented to the stockholders of the Texas Pacific Railroad at their annual meeting at 275 South Fourth street yesterday. The Board of Managers stated that the number of miles operated on during the year ending on May 31 was 444, viz: from Shreveport, La., to Fort Worth, Texas, 219 miles, and from Maistal, via Texarkana to Sherman, 225 miles. The total of main track and sidings is 483 miles.

The gross earnings for the year ending May 31 were $2,331,310.35, and the working expenses, $1,448.439 38; the net earnings being $872,870.97. Out of this amount has been paid the interest on the first and consolidated mortgages, taxes, insurance and improvement expenditures.

In gross earnings compared with the previous year there was an increase of $287,857.05. The working expenses increased by $95,993.42, leaving an increase in net earnings of $191,863.63, equal to 27 80-100 per cent. The net earnings for every mile of road operated were $1,988.45, against $1,666.08 in the previous year, an increase of $322.37 per mile or 19 35 1,000 per cent.

There was an increase in commercial tonnage moved during the year of 70,-820 tons, or 22 per cent. The total transportation included 214,438 bales of cotton, 372,492 bushels of grain, 143,-512 head of live stock and 124,292 tons of lumber. Of the entire tonnage 76 per cent. was local business, and the remainder through business.

The Board of Managers also reported that the company has become entitled, under grants from the State of Texas, to 4,716,343 acres of land, of which 3,074.378 acres have been located and contain some of the best agricultural and grazing lands in the State. Some very valuable coal mines have also been discovered upon the company's property in Texas.

A Kentucky Mystery.

New York Times.

About the middle of July, Phillip Falls, a resident of Union, Boone county, Ky., a few miles from Covington, left his home for Clarksville, Tenn. He arrived at Louisville and stopped over for the night at one of the prominent hotels, where he met an old enemy. They resumed their ancient quarrel, and Falls struck his opponent on the head with a pistol, knocking him down, when friends interfered and separated them.

They then agreed to settle the feud the next day with pistols, in the mountains of Kentucky, and according to agreement they met the next morning and concluded their preparations. They took a train and left the city for the mountains, unaccompanied by friends or spectators, and from that day to this not a word has been heard from Philip Falls or his enemy. Search and inquiries have been made, but all are fruitless, and many believe that the men fought as they had premeditated, and fell at the hands of each other in the mountains. Both men were in good social standing, and the quarrel, which had such a mysterious termination, arose about a woman.

Kearney Does Not Believe In Hayes.

To a *Herald* interviewer Kearney confessed that he voted for Hayes. "And as it was my maiden vote," he said, "I regret to say that it was cast for a fraud." Kearney may be supposed to know something about California, and as a voter for Hayes his testimony as to the election there in 1876 should have some value. Here it is:

"He did not believe that the vote of California was honestly cast for Hayes. Morton came down there and arranged a plot, which was carried into effect, and the votes of over 10,000 dead men were cast for Hayes at the presidential It is a matter of history, and no one in California pretends to doubt it. The three subsequent elections have proved it. Elected by the votes of men whose fetid corpses were moulding in the grave, is it any wonder that there is the smell of the whited sepulchre about the fraudulent administration?

A Strip on Which Rain Does Not Fall.

Charlotte Observer.

There is a little strip of country, not more than three miles wide, between the six-mile and twelve-mile creeks, in Union county, on which no rain has fallen since the 19th of last May. The stricken territory extends to the Clay Hill county, in York county, S. C., and everything in it is of course burnt up. There have been good rains on both sides of this dry strip but hardly a drop has fallen on it.

FOURTH CONGRESSIONAL CONVENTION.

A Call from Granville for Julian S. Carr's Nomination.

Correspondence of the News.

KITTRELL'S, Aug. 15.

We have read with much pleasure the several communications published in your city papers, favoring the nomination of Julian S. Carr, Esq., of Durham, for Congress, by the Convention which is to assemble at Raleigh next Thursday, all of them meeting our hearty endorsement, and we earnestly hope our feelings will be shared in, by the members of the Convention, because we think Mr. Carr the most acceptable man we can put in the field at the present juncture. In the strength of a vigorous manhood, with a clear and intellectual mind, moral habits, unassuming manners, well versed in the political and financial condition of the country, firm and unflinching in his attachment to the principles of the Conservative party, and perhaps better informed as to the wants and necessities of our own particular section of country than any man in the District, who is so well fitted for the nomination as he?

Mr. Carr is a *representative man*; he is one of the people, in an emphatic sense; knows and *feels* how the popular pulse beats; he has carved his own fortune and assisted many others to carve theirs; sees and knows what kind of legislation is needed to promote the welfare of the nation, and particularly the Southern portion of it. Mr. Carr has not sought this nomination, and if it is tendered to him it will find him, like Cincinnatus, engaged in pushing forward his own business, with his own industrious hands.

Another grand reason, in our judgment, for selecting Mr. Carr is, that he will prove the strongest man we can select to unite the whole District in the struggle against radicalism, assisted by such defective democrats as are determined to rule or ruin.

We have not one word to say against any of the other gentlemen whose names are prominently mentioned for the nomination, but we do say, that with J. S. Carr for our standard-bearer, "old Granville" will pile up such a majority as will make even the Oxford Ring fairly howl with dismay. More of this at the Convention.

GRANVILLE VOTERS.

The Taylor Steam Engine.

These engines, manufactured by the Taylor Manufacturing Company of Westminister, Md., are known everywhere, by reason of the excellence of their workmanship and their power. These engines occupy a prominent position in the Exposition Universelle at Paris, as will be seen by the paragraph below:

"In the American Agricultural hall, which is devoted to a great variety of heavy exhibits besides those of Agriculture, the Taylor Steam Engine Company, of Westminister, Maryland, have three engines on exhibition. They keep them always in motion, supplying motive power to the hundreds of reapers and mowers and the agricultural implements, which are always thronged with spectators. These engines are marvels of simplicity and beauty, and a threshing machine they have on exhibition attract great attention, both on account of its improved pattern and action and its ingenious construction.

Messrs. Allen & Cram are the agents here for these superior engines.

Bold Ruffians.

In New York, about midnight, on Saturday, a respectable woman returning to her home was seized by four ruffians belonging to a well known gang, carried bodily to a secluded spot within five blocks of a police station, and outraged. She screamed loudly while being carried off, and doubtless many persons heard her cries, but even a strong man within hearing would probably be restrained by fears for his personal safety from interfering with a body of desperate ruffians, so no one came to the poor woman's assistance until a citizen found a policeman and led him to the spot, but no arrests were made.

It is a well known fact that the accidental admission of air into veins during surgical operations, has in many cases caused the death of the patient. The knowledge thus gained has been utilized to destroy old and otherwise worthless horses. The instruments used are a fleam and a gutta percha catheter. The manner of operating is to open the vein as in bleeding, then introduce the tube into the vein, passing it downwards toward the heart; three full inflations of the lungs are rapidly passed through the tube, when it is advisable for the operator to stand one side, for the animal falls instantaneously without warning. A few struggles for breath and the animal is dead. To prevent the attempt to breathe, an assistant, as soon as the animal falls, draws the nose toward the wind pipe, when a long narrow blade of a knife is passed between the occiput and first bone of the neck perpendicularly, dividing the medulla spinalis, causing instant death.

This is a very sad but a very true yarn: Laura Hartley was a sweet-faced, tender-hearted little miss of Sedalia, Mo., who loved Alfred Giltner better than all the world. She was nineteen and he was twenty-two, and he had circled the whitest of her white fingers with a bit of plain gold. Alfred and Richard Smith, both of well-to-do religious families, were a few days ago detected in counterfeiting silver money. There was no doubt of their guilt and they were lodged in jail. Laura was so shocked at the disgrace that she died a few minutes after it came to her ears.

A fruit scare occurred last week in Philadelphia. Some one set on foot a rumor that the pineapples and bananas which are imported into Philadelphia come from regions which are affected with the yellow fever, and that the deadly contagion is likely to be propagated through this medium. This notion has spread so rapidly that the demand for this class of fruit has almost entirely ceased, and the retail dealers who have laid in large stocks are suffering serious losses. The report was groundless.

Loss by fires in the United States for the month of June, 1878: Total number of fires, 333; aggregate loss by said fires, $4,941,400: loss to insurance companies, $2,972,100. These figures show the average loss per day have been over $1,647.

ELECTION—TUESDAY, NOVEMBER 5TH.

Prospects of the South--The Next Census.

There are many reasons for thinking that the National census of 1880 will reveal a surprising recuperation over the whole sixteen States constituting the section known as the South. This re-action will not only be shown to be decided in population, but in actual wealth, manufactures and agriculture, it will be found to be unexpectedly great. We are decidedly of the opinion that the *average* condition of the South proper, to-day, is better than that of any other section of the Union. There may not be, and there is not, as much individual wealth or as much bloated prosperity among us as in the States of the North and West, but there is less suffering, fewer persons unemployed, and more general hope and cheerfulness. What nobler commentary upon the character, the spirit and the *energy* of our population?—the latter a quality in which we have been twitted with being deficient. A people who, emerging from four terrible years of suffering and of blood, with their industries broken up, their system of labor revolutionized, their property, except that in land, destroyed, and their very hearts torn and lacerated, could yet, in so short a period, have risen superior to such a weight of discouragement and of sorrow,—and that, too, when the power which conquered them, or, rather, the party which has wielded that power, sought to obstruct their rise and to place them beneath the feet of servile subjection,—such a people, we say, is worthy of any country and of any destiny. The enfranchisement of the negro, too, intended for our humiliation and as an instrument for the perpetuation of Radical power, has proven, literally, to be one of those devices that return to plague the inventors, for to it we owe much of our enhanced political weight in the affairs of the government. Indirectly, it was that enfranchisement which elected Mr. Tilden to the Presidency, out of which he was defrauded; and it is the Republican of the North, and not the Democrat of the South, who would, to-day, if he could, deprive the colored man of his vote. By way of parenthesis, this is not intended as *ad captandum* for the negro, on our part. We have no arguments to address, or appeals to make, in that quarter. Breath is too precious to waste in whistling against the wind.

But to return to the subject in hand: We are indebted to the Philadelphia North American for a speculative *resume* of the exhibits of the next census, from which we glean some interesting probabilities:

It is known and admitted that the progress of Texas and Missouri has been very remarkable in all material aspects. In fact, these two States will contest with Virginia the position of the leading Southern State. Eventually it seems likely that Texas will outstrip all other Southern States unless her territory shall be divided. But Missouri is so near to the great sources of Southern capital and labor, so convenient to St. Louis, Cincinnati and Chicago, and possesses such enormous resources, that her progress must be very rapid and astonishing.

Next to these States, Virginia will probably make the best show, her people having been almost entirely clear of lawlessness since the war, her peace having been perfect and undisturbed, and her entire attention given to the recovery from the waste and desolation of war and the development of her neglected internal resources.

Georgia will make a prosperous display in material wealth, but not in increase of population. Manufactures have made much progress there during the past ten years.

Kentucky and Tennessee have been distracted by resistance to the excise taxes on tobacco and spirits, which have been the real causes of the outrages by marauders attributed to political organizations. These troubles are wide-spread, and somewhat interfere with the prosperity of the two States.

There has been considerable material progress in Delaware, Maryland, West Virginia and Florida, sufficient, in fact, to compensate for all losses in South Carolina, Alabama, Mississippi and Louisiana, if such shall appear. In Florida the largest increase will be found in the agricultural districts of the northern counties, into which there has been a large and steady emigration from Alabama, Georgia and Mississippi. The influx into West Virginia has been chiefly from the old sources—Pennsylvania and Ohio. Arkansas has become tranquil and flourishing of late years, and shares in the progress of Missouri and Kansas somewhat.

North Carolina will show a marked augmentation of population, and decided strides in agricultural, educational and mechanical development. Her most marked progress has been within the past few years, since native intelligence and honesty have had the control of the government.

The American sums up: The cotton culture has recovered its fullest ante-war proportions. The tobacco culture has not recuperated to the same extent, but is doing well. The rice culture has taken a great start, and has proved very profitable in Louisiana, Georgia and South Carolina. In all the Southern States great progress has been made in wheat, corn and live stock. Stock-raising has peculiar attractions for Southern farmers. Railroads, mining and manufactures have struggled under the disastrous influences of want of capital and four years of revulsion and agitation, but in the main these interests have improved at the South.

The fifth of the seven labors which Hercules performed was to cleanse the stables of Augeas, where numerous oxen had been confined for many years. He did his work so thoroughly that the achievement has grown into a proverb. Mr. Josiah Turner, though by no means a Hercules, claims that he did an equal service in purifying the State of Radical offal and corruption. He now proposes to himself "to purify the Democratic party," and invites the negroes to assist him in the task of purgation. The boast and the invitation imply three things: First, that Mr. Turner is entirely satisfied with the present healthfulness of the Radical atmosphere; second, that the atmosphere of the Democratic party is not congenial to his fastidious lungs; and third, that he considers the negro as only second to himself as a great moral and political Deodorizer! In the charity of our hearts we are ready to frame apology for each and every of his delusions. Mr. Turner has now lived so long in seclusion, that, perhaps, he has not heard of those Radical corruptions in Granville which have made the name of the party a by-word and a stench in that now regenerated county; or of the campaign in Wake, where the chief spokesman of the "purified" party, viz: one Albert Magnin, was charged by some of his own political friends with being a thief and we know what else. Again, that the air of the Democratic party does not suit him, is explicable by the simple physical fact that a nose, accustomed as he claims his to have been in smelling out all manner of filth, is deadened to the sense of purer inhalations. And yet, again, Mr. Turner is not the first man who has seen

"Helen's beauty in a brow of Egypt,"

or, in plainer words, thought the negro a marvellously proper citizen, voter and brother, when the chances of office hung upon his suffrage. And so, in remembrance of the past, let us give him the benefit of every possible explanation of his new extravaganzas.

Hayes has cancelled another debt. Mrs. Jenks—the inimitable Jenks—has received an appointment as a Detective in the Treasury Department, and been assigned to duty at the New Orleans Custom House. We confess to a sort of admiration for Jenks. No such witness has appeared on any stand since Sam Weller was examined in the celebrated case of Bardell vs. Pickwick. Sam lied inferentially and humorously; but the Jenks fibbed so ingeniously, with such piquant grace, with such vivacious insinuation, that Butler surrendered at discretion, Sherman threw up the sponge, and all the reporters of the Washington press sighed for very envy. What a woman for a Detective! The fair sex, as a general rule, are expert at finding out some things and telling them afterwards; but Jenks found out everything in Louisiana politics, and then told—only what suited her!

By the way, how valuable such characters are to our lexicography. In the old party days, "Roorback" gave name to political mendacity, just as of late years "Butlerizing" became synonymous with "picking up things." And now the Louisville Journal, replying to an accusation of some cotemporary, says, in the blistering words of Marmion—

"Lord Angus, thou has Mrs. Jenksed!"

Once upon a time a lonely man, walking along the thoroughfares of a populous city, espied a silver quarter upon the ground. "Behold," said he, "how fortunate I am! I am growing rapidly opulent." And he stooped down with a weary sigh to grasp the quarter, but, lo! it was not there. Near by was a small boy playing with a string, but the quarter was not in sight. Whereupon the man marvelled much, but marvelling did not restore the quarter, nor did the man see it ever any more. The Atlanta Constitution commends the moral of this story to the numerous candidates for Congress, "independent" of party organization, who are springing up in various parts of the South.

The number of ineligible (or of supposed ineligible) members elect to the next Legislature increases. It now appears that J. D. Click, one of the members elect to the House from Iredell, is a County Commissioner. Question is also raised as to the eligibility of Capt. S. B. Alexander, Senator elect from Mecklenburg, by reason of his being a member of the State Board of Agriculture. Legal opinions differ as to whether this latter position is an office within the meaning of the Constitution.

Democratic, State, Congressional, District, County, City and Town committees, that have not already done so, are requested to communicate at once with the Democratic Congressional committee at Washington, D. C., addressing their communications to Hon. Joseph C. S. Blackburn, Chairman, or to Duncan S. Walker, Secretary. A complete list of each committee, with the post-office address of each member, is desired.

The New York Times gives its readers an appalling picture of Democratic frauds in Alabama, where there was but one ticket in the field and but one party at the polls. Just why any body would go to the expense and pains of cheating in elections, when there were none but his own votes to receive and count, would be a poser to an average mind, but New York organs can do things which lesser lights don't dream of.

Hayes' miserable sham of civil-service reform is now a standing joke in the Department at Washington. Representative Foster, who is grinding away at the assessment machine, says: "Schurz is not such a d—d fool as people think he is. He's a pretty good fellow, and we're getting a deal of money from the Interior Department."

We thank our friend LILES, of the Pee Dee Herald, for his kind and pleasant words. We remember well the occasion to which he refers. But

"No more of that, Hal, an' thou lovest us"

The Pee Dee Herald nominates V. V. Richardson, Esq., of Columbus, for the Speakership of the next House of Representatives.

VEGETINE.

For Dropsy.

CENTRAL FALLS, R. I., Oct. 19, 1877.

DR. H. R. STEVENS:—

It is a pleasure to give my testimony for your valuable medicine. I was sick for a long time with Dropsy, under the doctor's care. He said it was Water between the Heart and Liver. I received no benefit until I commenced taking the Vegetine; in fact, I was growing worse. I tried many remedies; they did not help me. VEGETINE is the medicine for Dropsy. I began to feel better after taking a few bottles. I have taken thirty bottles in all. I am perfectly well, never felt better. No one can feel more thankful than I do.

I am, dear sir, gratefully yours,
A. D. WHEELER.

Vegetine.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Vegetine.

FOR KIDNEY COMPLAINT AND NERVOUS DEBILITY.

ISLESBORO, ME., Dec. 23, 1877.

MR. STEVENS:

Dear Sir,—I had, had a cough, for eighteen years, when I commenced taking the Vegetine. I was very low; my system was debilitated by disease. I had the Kidney Complaint, and was very nervous—cough bad, lungs sore. When I had taken one bottle I found it was helping me; it has helped my cough, and it strengthens me. I am now able to do my work. Never have found anything like the Vegetine. I know it is everything it is recommended to be.

MRS. A. J. PENDLETON.

Vegetine is nourishing and strengthening; purifies the blood; regulates the bowels; quiets the nervous system; acts directly upon the secretions; and arouses the whole system to action.

FOR SICK HEADACHE.

EVANSVILLE, Ind., Jan. 1, 1878.

MR. STEVENS:—

Dear Sir,—I have used your Vegetine for Sick Headache, and been greatly benefited thereby. I have every reason to believe it to be a good medicine.

Yours very respectfully,
MRS. JAMES CONNER,
411 Third St.

Headache.—There are various causes for headache, as derangement of the circulating system, &c. Vegetine can be said to be a sure remedy for the many kinds of headache as it acts directly upon the various causes of this complaint, Nervousness, Indigestion, Costiveness, Rheumatism, Neuralgia, Biliousness, &c. Try the Vegetine. You will never regret it.

VEGETINE
Doctor's Report.

DR. CHAS. M. DUDDENHAUSEN, Apothecary, Evansville, Ind.

The doctor writes: I have a large number of good customers who take Vegetine. They all speak well of it. I know it is a good medicine for the complaints for which it is recommended.

Dec. 27, 1877.

Vegetine is a great panacea for our aged fathers and mothers; for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep.

VEGETINE
DOCTOR'S REPORT.

H. R. Stevens, Esq:—

Dear Sir,—We have been selling your valuable Vegetine for three years, and we find that it gives perfect satisfaction. We believe it to be the best blood purifier now sold.

Very respectfully,

PROF HERTZ'S GREAT
GERMAN HAIR RESTORATIVE
PREPARED BY
XANTHINE CO. RICHMOND VA

(From Rev. W. W. Bennett, D. D., Senior Editor Richmond Christian Advocate.)

I have tried the Xanthine, and found it to be all it claims in restoring hair to its natural color and removing dandruff.

W. W. BENNETT.

(From Rev. Mr. Cameron, Minister of the Presbyterian Church South.)

MOSSY CREEK, Tenn., August 22, 1876.

Xanthine Co., Richmond, Va.:

I have used the Xanthine now for three years, and have induced others to try it, and have never known it to fail in accomplishing all you claim for it. It is an excellent tonic a pleasant dressing, removing and preventing dandruff and all unpleasant itching, promoting and preserving the natural growth and color of the hair, and rendering it glossy and pliable. I confidently, cheerfully and knowingly recommend it.

W. C. & A. B. STRONACH—Groceries.

LOCAL BRIEFS.

——Asheville was never so gay as at present.

——No fault can be found with the water supply these days.

——Yesterday was a genuine April day, sunshine and shower.

——The Charlotte committee collected $251.75 for the Grenada sufferers.

——Capt. R. P. Waring, of Charlotte, has been appointed a U. S. Commissioner.

——North Bloodworth street is reported by residents on it as needing repairs.

——Professor Agthe, formerly of this city, now of Salem, is organizing a fine choir there.

——The State Treasurer has issued a Drummer's license to Hempstone & Co., Baltimore, Md.

——A lung tester, stomach filler, proprietor now shouts loudly at the market, to gaping crowds.

——About one hundred persons went on the excursion to Norfolk and Old Point, Va., on Thursday.

——The growing crops and grasses have now a brilliant green, by reason of the continued moisture.

——Pastors of the city churches are requested to send in notices to-day of any changes in Sunday's services.

——The improvements to the Blount property, on Hillsboro avenue, have added materially to its appearance.

——The colored bucket and ladder company, of this city, will give an excursion to New Berne on Tuesday.

——Attention is called to the advertisement for proposals for wood for the Capitol, which is published by the State in another column.

——Colonel L. L. Polk, State Commissioner of Agriculture, is addressing large assemblies of farmers and miners in the Western counties.

——A couple of U. S. prisoners, who have been in jail here for some time, were yesterday taken out by Marshal J. B. Hill, who took them to Henderson.

——Quite a party of youths fond of athletic sports were charmed yesterday at a boy, who, standing on his head, held a potato in one hand and took of its skin with a knife in the other.

——The Supreme Council of the Friends of Temperance, composed of delegates from State Councils of South Carolina, Virginia, and North Carolina, will meet in Rockingham September 11.

——Yellow fever was the general subject of conversation yesterday, while it was, perhaps, dreaded by some timorous ones. It has not made its appearance in the State, nor is it apprehended that it will do so.

——Fayetteville street was again flooded yesterday by the hard rain. The portion of the street at the intersection of Martin is always overflowed by such rains. The gutters should be deepened.

Personals.

Capt Walter Coney, of Wilmington, is at the Yarbrough.

Col. T. B. Keogh, of Greensboro, is in the city.

Mr. A. M. McPheeters yesterday left for Liberty, Va., where his family are spending the summer.

The Temperature.

Temperature yesterday, as indicated by the thermometer at Tucker's store:

6	a. m., 76°	2	p. m., 86°
10	" 82°	6	" 80°

The Mountains.

Dr. J. M. Tomlinson, of High Point, will on the 26th inst run an excursion train from the sea shore at Beaufort to the Mountains at Henry's. The fare for the round trip from Raleigh is only $5.60. It gives a capital opportunity to see the land of the sky at low figures.

Mayor's Court.

Cæsar Pool, colored, for violation of the laws regulating sales in the city market, was fined $5 and costs.

Six offenders, all pale-faces, who indulged in a general fracas on Wednesday night, were sent on to the Criminal Court in bonds of $50 each.

Upland Rice.

Some specimens of upland rice have been received at the Museum of Agriculture, from Johnston county. The heads of this rice are like those of the sugar cane in shape, but are cream colored. It is said to be prolific, but the Department is not informed as to its fitness for use.

Death.

Miss Marie A. Brink, eldest daughter of Col. Ed. R. Brink, postmaster at Wilmington, died at Old Fort, N. C., on Wednesday evening last. She left Wilmington three weeks ago on a visit to some friends at Old Fort, apparently in good health, and a few days ago her father was summoned to attend her in her last moments.

County Officers.

The Sheriff has issued certificates of the election to the following as officers of the county. All but Mr. Upchurch held office for two years; he holds for four:

J. J. Nowell, Sheriff; J. B. Neathery, Treasurer; W. W. White, Register of Deeds; C. D. Upchurch, Clerk of Superior Court; W. R. Richardson, Coroner; W. B. Fowler, Surveyor.

The Finest Peaches

Yet shown in the city this season, were exhibited yesterday by Dr. Geo. W. Blacknall, the urbane host of the Yarbrough. They are of the variety known as the "Mammoth Fructifiers," measuring 7½ inches in circumference, and weighing 8 ounces each. They were grown at his fine farm one mile south of the city.

Baptist Association.

The Primitive Baptists to-day and to-morrow hold one of their great Associations at Dutchville, on the border of Granville county, near the Wake line, 24 miles from this city. The number of persons who attend these meetings is very large, as many as 5000 frequently being present. Several persons passed through the city yesterday en route for the place of worship

Political.

Mr. J. Turner was in the city yesterday. He will deliver an address on rings, etc., at Clayton, Johnston county. No report of his oratorical efforts is necessary, since they may be read in the editorials of that deceased journal, the Sentinel. He is received with marked attention at the speaking places—crowds of as many as 50 persons being present! Nothing like encouragement!!

Church Notice.

There will be no service at Briggs' Hall until the 28th of this month. Father White left last night for Fayetteville, where he will hold services on Sunday next. This mission, together with eight others, are attended from Raleigh by Father White. From Fayetteville he leaves for Wilmington on Tuesday, from thence to Richmond, where he will assist at the consecration of Rt. Rev. J. J. Keane, Bishop of Richmond, and Administrator of N. C., on Sunday, the 25th of August.

Second Senatorial District.

The sheriffs of the different counties of this Senatorial District met at Plymouth on the 9th, to canvass the vote. In comparing the returns it was found that James T. Respass (Democrat) was elected by 26 majority, and S. T. Carrow (Radical) by 74. The returns from Beaufort and Pamlico, being irregular in form, were thrown out, and certificates of election given to Respass and Waldo, Democrats. This District has heretofore been classed as having elected two Radicals.

The Crops.

The majority of the reports made by farmers of this county who come in daily, show a marked improvement in the condition of the growing crops. The continued rains have in general had a good effect, and the corn, especially, is growing finely. In some parts of Johnston county too much rain is reported. The cotton is in good order, and full of blooms. It is not so high as usual, but no fears are at present entertained of a poor crop. While perhaps not equal to last as a crop year, yet there is no cause for complaint. The general reports of crops in Western portions of the State are highly favorable. The tobacco is progressing well.

Complimentary German.

An impromptu "German" was gotten up last evening, complimentary to four young ladies and gentlemen of Charlotte on their way home from Beaufort. The flitting visitors were Misses Emma McDowell and Ella Dowd, and Messrs. W. R. Johnston and W. P. Myers.

Those of this city under whose charge the affair was hastily gotten up, Misses Bessie Batchelor, Lavine Haywood, Carrie Winder, Annie Perkins, Cora McDowell, Olivia Cowper, Mal Haywood, Nellie Manly, and Messrs. Ed. H. Lee, William Boylan, James Boylan, Cadet J. B. Batchelor, Jr, U. S. M. A., Midshipman Allen G. Rogers, N. A., Geo. Smedes, C. K. Knowles.

The Italian band furnished music and the time was pleasantly passed.

Mexican and Trade Dollars.

A circular issued from the Treasury Department says:

The Mexican dollar has only a value as bullion, which depends upon the price of silver; as bullion it is at the present price of silver worth about 90.8 cents, in gold per piece. Its circulation as money in the United States is optional, and at whatever value may be agreed upon.

The United States trade dollar also is not a legal tender, and, therefore, has only a bullion value.

The standard silver dollar, being a legal tender for all debts, public and private, is received at par at all government offices in payment of dues, differing in this respect from the Mexican and trade dollar, which are not received.

The trade dollar is worth two-tenths of a cent more than the Mexican dollar.

Aid the Sufferers.

Raleigh, the capital of the State, is doing a share of duty in the generous work of contributing to the pressing needs of the sufferers, by the scourge of Yellow Fever at Grenada, Miss. Wilmington and Goldsboro have gone vigorously to work in the matter of relief. The Mayor of Charlotte in conjunction with a committee, has already secured and forwarded $150. It is suggested as proper, that a meeting of the Board of Aldermen be held here at once, and the proper steps taken to appoint committees who will spare no effort to induce the citizens to contribute. The terrible condition of the people of the people of the stricken town, which is called by the Marshal, the only surviving officer, a grave yard, beggars description. Such woe, such wild excitement, are things unknown here. Thankful for the blessings by which they are spared such awful calamities, the people here should in no way neglect that piteous appeal for help which comes from the plague-stricken town. Until committees are appointed contributions may be sent Mayor Manly, who will forward them.

Mayor Manly spared no effort yesterday to secure liberal aid. He was in this labor of love most ably assisted by Mr. John T. Pullen, who quit his desk at the State National Bank and solicited contributions. Mayor Manly desires to express his thanks to Mr. Pullen, and the citizens will add theirs. Through the efforts of the two $147.50 was collected yesterday, and at once forwarded to Grenada. The total amount given here thus far, foots up $173. Arrangements are being made for sending future contributions by telegraphic money order.

Lumsden's is the place to buy your stoves. He sells them on time, if you haven't the money. So none need be without a cook stove. His "Old North State" took the premium at last State Fair as being the best wood cook stove on exhibition. Tin ware, wood ware, and a complete stock of house furnishing goods at Lumsden's. Powder, shot, caps and wads; also gun work in all branches, at Lumsden's. *

Mr. H. D. Law, one of our most respected citizens, has just started on his usual four months' visit to New York City, to make purchases for Law's well-known China and Silver House, on Fayetteville street. Mr. L. spent *eight* out of the last *twelve* months in New York, working from 7 A. M. to 7 P. M. each day, picking up the richest and most costly goods at bankrupt sales. The house has an unrivalled reputation, especially in silver ware, and its business is growing rapidly. *

Western North Carolina Rail Road.

On and after August 9th passenger and mail trains on the Western North Carolina Rail Road leave Salisbury daily at 12:15 a. m., and Henry daily, at 8:34 p. m., making close connection, both ways at Salisbury with Richmond and Danville Railroad trains. Passengers from Raleigh and other points on Richmond and Danville Railroad, and connecting lines reaching Salisbury at 12 o'clock at night, (except Saturday), go through without delay, reaching Asheville for dinner next day. 2w

To Carpenters and Builders.

If you are needing anything in the way of edge tools or builders hardware, of any kind, we would advise you to call at J. C. Brewster's hardware house, where you can find a splendid stock of goods in this line, and at prices to suit the scarcity of money. All tools sold are fully warranted. He will contract for roofing at prices which will enable you to put in your bids (where there is any tin work to be done) lower than ever, giving you an opportunity to use tin in place of shingles.

He uses nothing except the best material. J. C. BREWSTER,

Ninety-eight new Home Sewing Machines sold from J. L. Stone's office during the last four months. This shows business for the hard times. *

Western North Carolina Railroad.

The withdrawal by Weddin & Bailey of their coaches and teams from the Western North Carolina Railroad, at Henry, will result in no inconvenience to the traveling public, as an entirely new outfit of coaches, carriages and hacks, with splendid horses, was placed on the line between Henry and Asheville, by Brown and Verble, before the above mentioned withdrawal of Weddin & Bailey.

The new line offers every facility for the accomodation and convenience of the public. Families can still have conveyances to themselves when desired.

Railroad companies and others who have been selling tickets to Asheville and Warm Springs with coupons attached for stage line from head of Western North Carolina Railroad, will continue to do so, as such coupons will be recognized and received for fare over the new line. 1m.

Serve an Injunction on Disease

By invigorating a feeble constitution, renovating a debilitated physique, and enriching a thin and innutritious circulation with Hostetter's Stomach Bitters, the finest, the most highly sanctioned, and the most popular tonic and preventive in existence. It strengthens the stomach, remedies torpor of the liver and bowels, and gives a healthful impulse to the secretive and discharging functions of the kidneys and bladder. Not only does it arrest and prevent the recurrence of malarial fevers, but it furnishes the only adequate safeguard against them to persons who have never been afflicted with those maladies, but would be liable to incur them if medicinally unprotected. It eliminates from the blood certain impurities which the most skillful pathologists assign as the exciting causes of those agonizing complaints, rheumatism and gout, and it is, moreover, an excellent remedy for an enfeebled or overwrought state of the nerves, and for mental despondency. aug 12 6t

ORIGINAL.

BEAUTY:

OR THE

Secret of a Fair Face

AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MORE BEAUTIFUL THAN SHE NOW IS.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and while it is as harmless as water, it is so lifelike in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

JONES' BAKING POWDER

—:o:—

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money to every consumer. It stands unrivaled; we challenge the world to produce better, purer or more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterated and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers.

We caution those who value health, and appreciate good, wholesome living, to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article through all the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity which are in their compounding, as we claim "UNRIVALED."
